

Guidelines for studying from home

- Teachers will be setting work for all of the lessons that students would normally have in a day
- This will be on 'Show My Homework' and will be there ready to access by 9.00am. All the instructions and resources will be attached on 'Show My Homework' including PowerPoints, worksheets, reading, video clips or links to other online resources. Follow this link for more details on how to do this
- Students should work through these during the day, completing the activities so they are ready for the work coming on the following day
- Students should have taken home all their exercise books – they will be issued with new ones if their current one is almost full
- If students have any problems or issues with any of the work they should email their teacher. This should **only** be done via their school email address. This can be accessed through the school website. If you are struggling to access your school email please contact school on 0115 9261481 and we can help to sort this out.
- If any student has any difficulties with accessing work from Show my Homework, including accessing a computer, you should contact school (0115 9261481 or admin@theredhillacademy.org.uk) immediately as we can help with this
- Teachers will consider the level of challenge for students and make the work engaging. Video clips, research tasks and reading will feature in the lessons. In addition, teachers may create multiple choice questions for students to assess their own learning
