OPT IN: USING IMAGES OF CHILDREN

We like to have a record of our students taking part in the many activities that are offered at the Academy. We may take photographs of the students. We may use these images in our Academy prospectus or in other printed publications that we produce, as well as on our website, social media (Facebook, Instagram & Twitter), display screens or on project display boards at the Academy. We may also make video recordings for Academy conferences, monitoring or other educational use.

From time to time, our Academy may be visited by the media who will take photographs or film footage of a visiting dignitary or other high-profile event. Students will often appear in these images, which may appear in local or national newspapers, or on televised news programmes.
